

Preschool Gate!!

Safety Strip- If touched gate will **stop**

Motor arm- will break if gate is **pushed**

As I am sure you can imagine I DREAM about this gate!! It has now been fixed and has cost a lot of money (and time) to sort this out!

The gate is on a timer and will open automatically at 8.50, 11.50 and 2.50 to allow you to drop off and collect your children. It will automatically close at 9.10, 12.10 and 3.10 to keep Preschool secure.

If it does not open at these times or you need to visit out of these times please use the intercom to the left of the gate.

Intercom button-We can only operate the gate, from the preschool, if you call this. *If it hangs up press again as we can't call you back on it*

If there is no answer on the intercom please call us 01865 794287 and we can open the gate from the phone line!

Magnetic Lock- This holds the gate shut...If you push the gate open it breaks!!

I hope this **helps you help us** keep your children safe!
Any questions, please ask and "Thank you" for your patience!
